Subject: Microsoft Settlement

The parties opposed to the settlement are beyond children having temper tantrums they are morally obscene. The settlement is more than generous and cessation of the conflict will benefit America at large individual citizens our economy and the well-being of people all around the globe. If I were an enemy of the United States I would be cheering the efforts of the opposition as there can be no greater harm done to our nation than to indulge in continuous unremitting illogical energy draining costly distractions from the productive and creative efforts of paradigm-shifting companies like Microsoft. The motives of those opposing the settlement are transparent they are clearly nothing more than cheap gold diggers.
